

MaestrolQ

Operational
Intelligence for
Educational
Systems &
Environments

THE CONNX APPROACH: VISIBILITY → INSIGHT → ACTION

MaestrolQ unifies safety, communications, and campus systems into a single, real-time intelligence layer—improving emergency response, situational awareness, and campus operations.

SEE EVERYTHING

Unified visibility across campus systems

KNOW WHAT MATTERS

AI identifies risks, anomalies, and trends

ACT IN REAL TIME

Automated alerts and workflows enable immediate response

PREDICT WHAT'S NEXT

Anticipate threats and prevent disruption

WHAT MAESTROIQ DOES

MaestrolQ connects and unifies existing campus systems—without rip-and-replace—creating a **Shared Intelligence Layer** across safety and operations.

By correlating data from cameras, access control, alerts, communications, and campus systems, MaestrolQ enables **real-time situational awareness and coordinated response across staff and first responders.**

The result:

Faster response. Safer campuses. More connected operations.

Campus safety doesn't depend on more systems—it depends on faster, coordinated response.

THE CHALLENGE

Campus systems often operate in silos

Safety, communications, and facility systems generate data—but rarely work together in real time

- 01 Systems operate in silos across campus operations
- 02 Data is fragmented across systems
- 03 Teams lack real-time visibility
- 04 Emergencies are detected and communicated too slowly
- 05 Delays increase safety risk

Core Capabilities

AI-Driven Insights

Detect anomalies, identify threats, and surface what matters most

Real-Time Data Fusion

Correlates video, alerts, access control, and communications data

Orchestration & Automation

Trigger alerts and coordinate response across teams

Unified Operational Visibility

One real-time view across safety, communications, and campus systems

Command Center Enablement

Centralized dashboards for campus safety and operations

Deployment Models

MaestroIQ Core (Platform-as-a-Service)

Operate and manage systems with full visibility and control

MaestroIQ 360 (Fully Managed Service)

ConnX delivers 24x7 monitoring, response, and lifecycle management

Education Use Cases

Campus Safety & Emergency Response

- Detect incidents across campus in real time
- Integrate cameras, alerts, and communications
- Enable faster, coordinated emergency response

Communications & Alerts

- Deliver real-time alerts across campus systems
- Coordinate communication across staff and responders
- Improve response time during critical events

Facilities & Campus Operations

- Monitor building systems and campus infrastructure
- Track access control and environmental conditions
- Improve operational efficiency across facilities

Outcomes That Matter

03 Faster detection and response to system issues

01 Improved reliability of IT systems (LMS, networks, communications)

04 Real-time visibility across campus systems and operations

02 Better campus experience for students, staff, and administrators

05 Reduced operational disruptions and improved continuity

The ConnX Advantage

- ✓ Unify what others leave siloed
- ✓ Connect, don't replace
- ✓ From visibility to action
- ✓ Built for mission-critical environments
