

# ConnX Campus Safety Assessment & Audit

Enhanced support for Alyssa's Law, Kari's Law, and the RAY BAUM'S Act—built into every stage of emergency preparedness, response, and validation.

## Legislative Readiness Focus

- **Alyssa's Law** – Panic alerts and direct law enforcement notification
- **Kari's Law** – Direct 911 dialing and on-site emergency notification
- **RAY BAUM'S Act** – Accurate dispatchable location delivery

## The Challenge Campuses Face

**Campuses today—across education, healthcare, corporate, and public-sector environments—must balance open access with rapid emergency response, often across:**

- **Multiple buildings and facilities**
- **Disparate alerting and notification systems**
- **Legacy voice, paging, and access control platforms**
- **Fragmented procedures, training, and response workflows**

At the same time, campuses face increasing legislative requirements and heightened expectations around life safety, accountability, and emergency preparedness.

**IN AN EMERGENCY, SECONDS MATTER—AND GAPS IN VISIBILITY OR COORDINATION CAN HAVE SERIOUS CONSEQUENCES.**

**SEE YOUR SAFETY POSTURE CLEARLY. RESPOND FASTER. PROTECT LIVES WITH CONFIDENCE.**

The ConnX Campus Safety Assessment & Audit strengthens emergency readiness by evaluating and validating systems that support

***Alyssa's Law*** *(panic alerting and law enforcement notification),* ***Kari's Law*** *(direct 911 dialing and on-site notification),* ***and the RAY BAUM'S Act*** *(accurate dispatchable location information)—*

alongside broader safety, security, and operational readiness requirements.

## The ConnX Difference

ConnX combines **safety-focused consulting, communications expertise, and real-world operational insight** to deliver assessments that go beyond checklists.

- **In-Depth understanding of campus safety legislation and life-safety systems**
- **Integrated view of alerting, voice, video, access, and operations**
- **Outcome-driven recommendations tied to real emergency scenarios**
- **Executive-level reporting with measurable readiness indicators**

## What the ConnX Campus Safety Assessment & Audit Delivers

The ConnX Campus Safety Assessment & Audit provides a **holistic, campus-wide evaluation** of safety technologies, emergency communications, and response readiness.

## THIS ASSESSMENT HELPS ORGANIZATIONS ANSWER CRITICAL QUESTIONS SUCH AS:

- Are our emergency alerts reaching the right people, fast enough?
- Do our systems fully support Alyssa's Law, Kari's Law, and the RAY BAUM'S Act?
- Can responders accurately locate incidents inside our facilities?
- Are staff trained and prepared to act under real-world conditions?

# ConnX AI

## Scope of the Assessment

### Emergency Alerting & Notification
- Mass notification systems (PA, mobile, desktop, visual alerts)
- Alert speed, redundancy, and coverage
- Law enforcement notification pathways (Alyssa's Law)

### Panic Buttons & Silent Alerting
- Fixed, mobile, and wearable panic button solutions
- Silent alert transmission and escalation workflows
- Location accuracy and responder coordination

### Emergency Calling & Location Services
- Direct 911 dialing without prefixes (Kari's Law)
- On-site notification when 911 is called
- Dispatchable location accuracy (building, floor, room) per RAY BAUM'S Act

### CCTV, Alarms & Access Control
- Camera coverage, placement, and image quality
- Alarm systems (fire, intrusion, duress, lockdown)
- Access control and emergency locking capabilities
- Integration between video, alarms, and alerts

### Policies, Procedures & Training
- Emergency response and lockdown procedures
- Staff training and awareness
- Drills, tabletop exercises, and readiness programs

## The ConnX Assessment & Audit Process

### Discovery & Intake
- Stakeholder interviews
- Review of safety policies, procedures, and system documentation
- Identification of legislative and operational priorities

### Systems & Readiness Analysis
- Evaluation of safety, alerting, and emergency calling systems
- Workflow and escalation review
- Compliance validation against applicable safety legislation

### Findings & Risk Insights
- Identification of system, process, and training gaps
- Risk-based prioritization of findings
- Readiness and compliance observations

### Actionable Safety Roadmap
- Clear remediation recommendations
- Compliance-aligned improvement plan
- Phased roadmap to strengthen readiness and response

## Deliverables

**Executive Summary**
Clear findings tied to safety, risk, and compliance

**Current-State Safety Overview**
Systems, workflows, and readiness today

**Compliance & Risk Analysis**
Alyssa's Law, Kari's Law, RAY BAUM'S Act

**Operational Readiness Insights**
Technology, training, and coordination gaps

**Prioritized Remediation Roadmap**
Practical next steps for improvement

## The Outcome

- **Verified alignment with key safety legislation**
- **Faster, more accurate emergency response capability**
- **Reduced liability and regulatory exposure**
- **Greater confidence for leadership, staff, and stakeholders**
- **A measurable path to continuous safety improvement**
